

**Wasserverband "Unteres Raabtal"**  
p.A. Stadtamt Jennersdorf, Hauptplatz 5a, 8380 Jennersdorf

The Wasserverband Unteres Raabtal was established in 1982 and the Wasserverband Unteres Lafnitztal in 1972. On 30.03.1995 a cooperation agreement for sharing water resources, water treatment and the supply to the population with clean drinking water was completed.

The 2 associations provide all municipalities (11), except Deutsch Kaltenbrunn.

The associations build the necessary transport and supply lines and the elevated tanks, also the expansion of the waterworks.

Furthermore, the 2 associations provide for development of news wells, so that in future, despite the ever increasing demand of water, the supply system always is available.

The water quality is constantly tested by official testing organizations and the laboratory in Heiligenkreuz and has the best values.

The delivered water is sufficient, the aim of the 2 associations is reach and a guaranteed supply of the population is ensure.
